PACKING SHOE BOX

1. Stuff toe of each boot with white tissue paper.
2. Place shaft stuffer into each boot. The stuffer should not extend above the height of the boot.
3. Place box with label facing packer.
4. Place one piece of tissue long ways, top to bottom, in boot box so that the tissue extends above the top of the box on both ends.
5. Place one piece of tissue in bottom of box about 2 inches from the inside right edge. The excess tissue should extend over the left hand side of box.
6. Repeat step 3 on right hand side of box.

PACKING SHOE BOX (Continued)

- 7. Place right boot in upper right corner of box with toe facing box label.
- 8. Fold piece of tissue over the right boot.
- 9. Fold 3 pieces of plain white tissue into thirds and place on top.
- 10. Place left boot in bottom left corner of box with heel facing box label.

- 11. Fold the remaining tissue over to completely cover the boots. Fold top and bottom pieces first then finish with the left piece by tucking it down into the right hand side of box.
- 12. Place the lid on top with the logo facing right.
